

The Flipped Classroom Workshop:

Intergrating Technology for Active Learning

Full Day Workshop - July 18, 2022 - 9:00-4:00 PM CST

REGISTER NOW

Students **learn more** when
class time is spent **actively learning**
instead of passively listening.

**Traditional teacher-led instruction no longer works.
Ready to evolve your teaching style to engage
students and promote active learning?**

Learning is not a one-size fits all model! It is time to move away from the traditional broadcast model of teaching and instead implement an active, student-centered model. The Flipped Classroom model is an innovative, engaging, and skill-based instructional model that gives students the lead!

By flipping the classroom, you will transfer the ownership of learning to your students. This workshop will empower you to bravely move away from traditional lecture and explore inquiry based learning as your daily mode of teaching.
