

Leading at the *Speed of Trust*[®]

Learn how to improve culture with the 4 Cores of Credibility and 13 Behaviors[®] of High Trust.

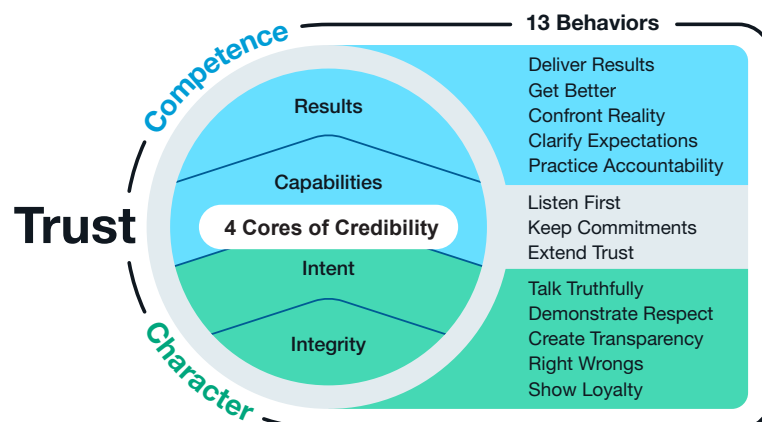

Trust is today's currency - and everything a leader says and does affects the level of trust in their team.

Leading at the Speed of Trust will provide the mindset, skillset, and toolset to measurably increase a participant's ability to deliver results and inspire trust.

Leaders who attend the highly interactive work session will increase their personal credibility and practice specific behaviors to increase trust.

The Trust Framework

The Trust Framework illustrates how credibility and behavior come together to create high trust.

Session Outcomes

At the end of the workshop, participants will be able to:

- Better manage change with new school initiatives.
- Lead high-performing teams that are agile, collaborative, and innovative.
- Increase staff morale and engagement.
- Discover ways to consciously increase personal credibility.
- Establish a consistent language of trust and transparency.
